VALIDATION REPORT

Verified legal (SRD): class / subclass / spellcast-trait alignment · Wanderborne → Nomadic Pack · Mixed-Ancestry structure (Cow top feature + Orc bottom “Tusks”) · 5-card loadout for level 4 · Proficiency 2 · Hope/Stress maxes · equipped Tier-2 statline.
Advancements applied (this build): the 3 previously-unspent Tier-2 picks were assigned — **Instinct +2→+3, Agility +1→+2, Finesse +1→+2, Strength 0→+1, Evasion 10→+1 = 11.** All 6 Tier-2 picks now reconcile: 2× HP slot, 1× raise-two-Experiences, 2× raise-two-traits, 1× Evasion.
Experiences reconciled: baseline is +2/+2/+2 (third Experience gained on entering Tier 2), and one “raise two Experiences” advancement yields +3/+2/+3. Legal as written.
